Independent Auditors' Report

Board of Directors
SBC Metropolitan District
City and County of Denver, Colorado

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund, of the SBC Metropolitan District (the "District") as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of SBC Metropolitan District as of December 31, 2021, and the respective changes in financial position and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

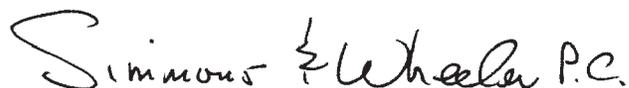

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's financial statements as a whole. The supplementary information listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Other Information

Management is responsible for the other information (Continuing Disclosure Annual Financial Information (Unaudited)) included in the annual report. The other information as listed in the table of contents does not include the basic financial statements and our auditor's report there on. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2021**

Net Change in Fund Balances - Governmental Funds \$ 324,853

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities, capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset.

Depreciation Expense (152,404)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

**SBC METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 1 DEFINITION OF REPORTING ENTITY

SBC Metropolitan District (District), a quasi-municipal corporation, was organized on May 26, 1998, and is governed pursuant to provisions of the Colorado Special District Act. The District is located entirely within the City and County of Denver, Colorado (City). The District was established to provide for the design, construction, installation, financing and acquisition of certain street, traffic and safety controls, water, sanitation, park and recreation improvements, and mosquito control, in compliance with the Amended and Restated Service Plan approved by the City and County of Denver City Council on March 27, 2007, as modified August 1, 2011.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees, and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred outflows and the sum of liabilities and deferred inflows is reported as net position.

**SBC METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Depreciation is computed and recorded as an operating expense.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes and specific ownership taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. The District determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations are recorded when the liability is incurred or the long-term obligation is due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

**SBC METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District amended its annual budget for the year ended December 31, 2021.

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank or investment account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the Manager of Revenue to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, at the taxpayer's election, in equal installments in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District or to DURA (see Note 8).

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

Capital Assets

Capital assets, which include infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress and are not included in the calculation of net investment in capital assets.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Depreciation expense has been computed using the straight-line method over the estimated economic useful lives.

Amortization

Original Issue Discount/Premium

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts and bond issue costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Cost of Bond Refunding

In the government-wide financial statements, the deferred cost of bond refunding is being amortized using the interest method over the life of the new bonds. The amortization amount is a component of interest expense and the unamortized deferred cost is reflected as a deferred outflow of resources.

Bond Insurance

In the government-wide financial statements, the deferred cost of bond insurance is being amortized using the interest method over the life of the new bonds. The amortization amount is a component of bond insurance expense and the unamortized deferred cost is reflected as an asset.

Deferred Inflow/Outflow of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, cost of bond refunding, is deferred and recognized as an outflow of resources in the period that the amount is incurred.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Inflow/Outflow of Resources (Continued)

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Equity

Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

**SBC METROPOLITAN DISTRICT

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity (Continued)

Fund Balance (Continued)

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2021, are classified in the accompanying financial statements as follows:

Statement of Net Position:

| | |
|-----------------------------------|----------------------------|
| Cash and Investments | \$ 4,722,549 |
| Cash and Investments - Restricted | <u>5,203,057</u> |
| Total Cash and Investments | <u><u>\$ 9,925,606</u></u> |

Cash and investments as of December 31, 2021, consist of the following:

| | |
|--------------------------------------|----------------------------|
| Deposits with Financial Institutions | \$ 81,476 |
| Investments | <u>9,844,130</u> |
| Total Cash and Investments | <u><u>\$ 9,925,606</u></u> |

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2021, the District's cash deposits had a bank balance and a carrying balance of \$81,476.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments

The District has adopted a formal investment policy to follow the state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Revenue bonds of local government securities, corporate and bank securities, and guaranteed investment contracts not purchased with bond proceeds, are limited to maturities of three years or less.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- * Local government investment pools

As of December 31, 2021, the District had the following investments:

| <u>Investment</u> | <u>Maturity</u> | <u>Amount</u> |
|--|-----------------------------------|---------------|
| Colorado Local Government Liquid Asset Trust (COLOTRUST) | Weighted-Average Under 60 Days | \$ 9,844,130 |

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust currently offers three portfolios – COLOTRUST PRIME, COLOTRUST PLUS+, and COLOTRUST EDGE.

COLOTRUST PRIME and COLOTRUST PLUS+, which operate similarly to a money market fund and each share is equal in value to \$1.00, offer daily liquidity. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under 24-75-601 C.R.S.

COLOTRUST EDGE, a variable Net Asset Value (NAV) Local Government Investment Pool, offers weekly liquidity and is managed to approximate a \$10.00 transactional share price. COLOTRUST EDGE may invest in securities authorized by 24-75-601 601 C.R.S., including U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under 24-75-601 601 C.R.S..

A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAM by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST at net asset value as determined by fair value. There are no unfunded commitments, the redemption frequency is daily or weekly, and there is no redemption notice period.

The details of the District's long-term obligations are as follows:

General Obligation Bonds

\$4,880,000 General Obligation Bonds, Series 2012. On December 19, 2012, the District issued its General Obligation Bonds Series 2012 in the principal amount of \$4,880,000, with interest at the rate of 4.000% per annum (the Series 2012 Bonds). The Series 2012 Bonds mature on December 1, 2037. The Series 2012 Bonds are subject to mandatory sinking fund redemption beginning on December 1, 2035. The Series 2012 Bonds are subject to optional redemption on or after December 1, 2022, without redemption premium. The Series 2012 Bonds were issued at a discount of \$98,332, which is being amortized over the life of the Series 2012 Bonds.

The Series 2012 Bonds, rated BBB+ by Standard & Poor's, are secured by and payable from monies derived by the District from the following sources, net of any collection costs: tax revenue received from levying a mill levy on all taxable property of the District in an amount sufficient to pay the principal of and interest on the Bonds including any money received by the District under or pursuant to the Cooperation Agreement as a result of the District's debt service mill levy. The Series 2012 Bonds are also secured by amounts held in the Reserve Fund and the Mill Levy Stabilization Account.

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

General Obligation Bonds (Continued)

\$19,225,000 General Obligation Refunding and Improvement Bonds, Series 2016. On October 27, 2016, the District issued its General Obligation Refunding and Improvement Bonds Series 2016 in the principal amount of \$19,225,000. The Series 2016 Bonds have interest rates ranging from 3.00% to 5.00%. Interest is payable semi-annually on June 1 and December 1, and principal is payable annually on December 1. The Series 2016 Bonds were issued at a premium of \$3,075,148, which is being amortized over the life of the bonds. The Series 2016 Bonds were issued for the purpose of (i) paying the Project Costs; (ii) refunding on a current basis the Series 2005 Bonds; (iii) funding the Reserve Account; and; (iv) paying issuance and other costs in connection with the Bonds (including the premium for the Bond Insurance Policy). The amount of the Reserve Requirement is \$870,625.

The Series 2016 Bonds maturing on or after December 1, 2027 are subject to redemption prior to maturity, at the option of the District, as a whole or in integral multiples of \$5,000, in any order of maturity and in whole or partial maturities, and, if in part, in such order of maturities (and, in the case of multiple interest rates within a maturity, in such order of interest rates) as the District shall determine and by lot within bonds of the same maturity and bearing the same interest rate, on December 1, 2026 and on any date thereafter, at a redemption price equal to the par amount thereof (with no redemption premium) plus accrued interest to the redemption date.

The Series 2016 Bonds maturing on December 1, 2034 are subject to mandatory sinking fund redemption, prior to maturity, in part, by lot in such manner as the Paying Agent shall determine, on December 1 of each year set forth below, at a redemption price equal to the principal amount thereof (with no redemption premium), plus accrued interest to the redemption date, in the amounts set forth below:

| <u>Year of Redemption</u> | <u>Redemption Amount</u> |
|---------------------------|------------------------------|
| 2032 | \$ 1,465,000 |
| 2033 | 1,535,000 |
| 2034 ⁽¹⁾ | 2,525,000 |

¹ Final maturity, not a sinking fund redemption.

The Series 2016 Bonds, rated BBB+ by Standard & Poor's, are secured by and payable from monies derived by the district from the following sources, net of any collection costs: 1) the Required Mill Levy, 2) the portion of the Specific Ownership Tax which is collected as a result of the imposition of the Required Mill Levy, and 3) any other legally available monies which the District determines to be treated as Pledged Revenue. The Series 2016 Bonds are also secured by amounts held in the Reserve Fund. Required Mill Levy means an ad valorem mill levy imposed upon all taxable property of the District each year in an amount sufficient to pay the principal, premium, if any, and interest, including any money received by the District under or pursuant to the Cooperation Agreement (see Note 8), on the Series 2016 Bonds as the same become due and payable and to make up any deficiencies in the Reserve Fund. All of the Bonds shall be additionally secured by a Bond Insurance Policy issued by Assured Guaranty Municipal Corp, rated AA by Standard & Poor's.

Debt Authorization

On May 5, 1998, and November 1, 2005, a majority of the qualified electors of the District authorized the issuance of indebtedness in an amount not to exceed \$30,000,000 and \$50,000,000, respectively, for general obligation bonds at an interest rate not to exceed 18% per annum. In addition, the electors authorized the refunding of up to \$30,000,000 and \$50,000,000, respectively, in general obligation bonds at a lower interest rate. During 2005, the District utilized \$22,785,000 of the \$80,000,000. At December 31, 2021, the District had authorized but unissued general obligation indebtedness in the following amounts allocated for the following purposes:

| | Amount Authorized 1998 | Amount Authorized 2005 | Amount Authorized 2012 | Amount Used Prior to 2005 | Amount Used Series 2005 | Amount Used Series 2012 | Amount Used Series 2016 | Remaining Authorization |

Per the original Service Plan, the District is limited to issuing \$23,600,000 in debt. However, on March 27, 2007, an Amended and Restated Service Plan was approved by the City and County of Denver. Per the Amended Service Plan, the District can issue additional General Obligation Bonds for improvements to be completed on land that will be included into the District. The maximum amount of General Obligation Bonds the District may issue increased by \$182,000 per acre for each acre of land within the future inclusion area that is included into the District. On October 18, 2010, the District included approximately 76.5 acres into the District resulting in \$13,923,000 of additional authorized debt.

In the future, the District may issue a portion or all of the remaining authorized but unissued general obligation debt for purposes of providing public improvements to support development as it occurs within the District's service area. However, as of the date of this audit, the amount and timing of any debt issuances is not determinable.

NOTE 6 NET POSITION

The District has net position consisting of three components – net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2021, the District had net investment in capital assets calculated as follows:

| | |
|---|------------------------------|
| Net Investment in Capital Assets | |
| Capital Assets, Net | \$ 3,313,344 |
| Bond Premium (Net of Accumulated Amortization) | (438,272) |
| Bond Discount (Net of Accumulated Amortization) | 14,668 |
| Bonds Payable | (4,958,675) |
| Unspent Bond Proceeds | 925,612 |
| Net Investment in Capital Assets | <u><u>\$ (1,143,323)</u></u> |

Restricted assets include net position that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation, the District had restricted net position as of December 31, 2021, as follows:

| | |
|-------------------------------|----------------------------|
| Restricted Net Position | |
| Emergencies | \$ 25,400 |
| Capital Projects | 252,453 |
| Debt Service | 952,536 |
| Total Restricted Net Position | <u><u>\$ 1,230,389</u></u> |

The District has a deficit in unrestricted net position. This deficit amount is a result of the District being responsible for the financing and repayment of bonds issued for the construction of public improvements which were dedicated to other governmental entities and which costs were removed from the District's financial records.

NOTE 7 RELATED PARTIES

The primary developer of the property within the District is ProLogis, a Maryland real estate investment trust (Developer) as successor in interest to Catellus Development Corp., a Delaware Corporation (Catellus). All of the members of the Board of Directors of the District are employees or consultants of the Developer.

The Developer has made cash payments on behalf of the District and entered into the following agreements with the District:

**SBC METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 7 RELATED PARTIES (CONTINUED)

Facilities Funding and Acquisition Agreement

On November 29, 2016, the District entered into a Facilities Funding and Acquisition Agreement (Agreement) to repay advances made by the Developer for such advances plus accrued interest at a rate of 8%. As of December 31, 2021, there are no advances outstanding under this agreement.

Maintenance Agreement

The Developer (as successor in interest to Catellus) and the District entered into a Maintenance Agreement dated October 28, 1999, whereby the District agreed to perform certain maintenance responsibilities located within certain street improvements and railroad crossings, as defined in the Maintenance Agreement, in accordance with applicable state, federal, and local standards. The District's obligation to maintain the street improvements and railroad crossing remains until such time as the streets and/or public crossings, as defined in the Maintenance Agreement, are conveyed to the City and County of Denver.

NOTE 8 DENVER URBAN RENEWAL AUTHORITY

During 2000, the District was notified that the land encompassing the District was included within the Stapleton Urban Redevelopment Plan Area (Plan). The Plan includes incremental property tax financing under the Colorado Urban Renewal Law under the direction of the Denver Urban Renewal Authority (DURA) which would normally freeze the property taxes collectable by the District at the year 2000 base level, subject to certain adjustments. In order to provide interconnection of public improvements and services to serve the entire Plan area with DURA, the District and DURA entered into a Cooperation Agreement dated July 15, 2000, as amended on May 1, 2004, and April 11, 2007. Under the Cooperation Agreement, DURA acknowledges that property tax revenue attributable to the District's debt service mill levy relating to the District's authorized general indebtedness in an amount not to exceed \$30,000,000 are excluded from the Plan and will not affect or change the payment of such revenue to the District. The first amendment to the Cooperation Agreement provided that the obligation to make payments of certain property tax revenue received by DURA to the District constitutes a legal, binding and enforceable obligation of DURA.

NOTE 9 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

**SBC METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2021**

NOTE 9 RISK MANAGEMENT (CONTINUED)

The District pays annual premiums to the Pool for liability, property and public officials' liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 10 TAX, SPENDING, AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

On May 5, 1998 and November 1, 2005, a majority of the District's electors authorized the District to collect and spend or retain in a reserve annually \$1,000,000 of all revenue other than ad valorem taxes of the District and authorized tax levies to produce taxes of \$1,000,000 annually for operations and maintenance without regard to any limitations under TABOR.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

NOTE 11 COMMITMENTS AND CONTINGENCIES

As of December 31, 2021, the Developer has incurred construction costs not yet certified for reimbursement by the District. It is anticipated that there will be a reimbursement in future years.
